

DMX-8 RDM Waterproof Splitter

Picture

Specification

- The overall aluminum alloy die-casting process, novel appearance, unique design
- Standard 1U design
- Support RDM function
- IP20
- 1 input and 8 output
- Standard DMX512 digital signal
- DMX signal shaping, amplification, optimizing DMX signal, extending DMX signal transmission distance
- DMX signal distribution function, multi-line DMX ports sharing a control system
- Using high voltage photoelectric isolation technology, the isolation voltage > 1000V between input and output port

Package & Size

Package size: 51*23*12 cm
Net Weight: 3.15 kg
Accessories: Carton, Power cord
