 **DAS AUDIO**

KEY FEATURES

- Half-Rack Mount
- Integrated 1 Gbit 4-port network switch
- 2 x Analog Input Channels
- 2 x Analog Output Channels
- 2 x Audio and Data Outputs

DESCRIPTION

The Matrix-22 is a 1U 19" half rack-mount, dual input, dual output channel breakout box intended to distribute analog audio signals and monitoring & control (ALMA) data to the ARA-P sound systems. It incorporates an integrated 1 Gbit 4-port Ethernet switch.

It is the most convenient solution when using ARA-P systems because of its simplicity and ease of use.

The internal ethernet switch combines the control data and analog audio in two etherCON outputs dedicated to connect the audio systems; 2 "ALMA outputs" intended to be used to send audio and data to the groups of systems.

MATRIX-22

SPECIFICATIONS

Audio

Audio Input Connector	Audio In: 2 x Female XLR
-----------------------	--------------------------

Audio Output Connector	Audio Out: 2 x Male XLR
------------------------	-------------------------

Network (ALMA)

Input	etherCON
-------	----------

Output	etherCON
--------	----------

Audio & ALMA Network

Audio and Data Distribution	2 x etherCON Out
-----------------------------	------------------

LEDS and Indicators

Power	ON - Green
-------	------------

Network Connectors	Left LED only - Green 100Mbit Right LED - Green 1Gbit
--------------------	--

Data Connectors	Left LED - Link Green Right LED - Activity Orange
-----------------	--

Power

AC Input Connector	PowerCON TRUE1
--------------------	----------------

Power Supply	Universal Mains Switch Mode
--------------	-----------------------------

Operating Range	90-250 VAC
-----------------	------------

Current Draw 230 V / 115 V	30 W
----------------------------	------
