

# Tenveo-T1 HD 1080P Streaming Webcam

# Tenveo

TENVEO-T1 is a professional full HD1080P Web camera designed for streaming. With a 1/2.7 CMOS sensor (OV2735), 3.5mm lens, 72° ultra-wide field of view, Tenveo-T1 provides vivid video image for each of the participants. Built-in two noise cancellation Omni-Directional Mics, capture your voice from every angle and filter out external background noise. Full HD 1080P/30FPS brings extraordinary video quality to enhance face-to-face collaboration. Built-in ring light, adjustable 3 levels of brightness, with touch screen control and facial enhancement technology, automatically optimize the image, makes the video streaming more professional. Compacting all-in-one design, simply USB plug and play, it is compatible with any video conferencing software applications.

## More Details

### Full HD 1080P CMOS Sensor

Tenveo-T1 is only a web camera for remote video calling or conference, but also a durable streaming webcam for online Teaching or Live Streaming at 30fps for 1080 resolution Full HD.

### Plug & play micro usb connectivity

Simply connect this webcam to your laptop/ desktop/ PC computer by USB and it will be instantly installed. Not have to install additional drivers. You can directly test the web camera in applications

### Light correction and LED Indicators

To preserve better facial image, besides low light correction and HDR tech, we have adopted a built-in soft light to offer comfortable white light. (It's also the LED indicator for work state)

### Compatible main streaming software

Connect and collaborate with ease. HD1080P Magnetic Webcam works with leading video conferencing apps, including: OBS, Microsoft Team, Zoom, Skype®, GoToMeeting, Polycorn and so on.

### 3-Levels Adjustable Lighting with Touch Control

Built-in ring light, adjustable 3 levels of brightness, with touch screen control and facial enhancement technology, auto matically optimize the image, makes the video streaming more professional.

### Built-in 2 microphones

Tenveo-T1 built-in two noise cancellation Omni-Directional Mics, and they ambient noise to enhance the sound quality of your video. It is able to pick up your voice within 10 ft.

- Pick up range( radius):** 4m
- Product size:** 17(W)×115(D)×22(H)mm
- Product weight:** 0.25kg

## How to use

### Set up your webcam

Grasp the webcam as shown and open the flexible/ clip base with your the other hand. Mount the webcam, make sure the foot on the flexible/clip base is flush with the back of your monitor.

Connect the USB port of the webcam to the TV. Or connect the USB port of the webcam to the PC.

## Download optional software to start a video call

Get started with video calling

Your TENVEO-T1 provides full HD 1080p video callings.

To start your video calling experience, both you and the person you call should use a video-calling application such as Skype, Wechat, Microsoft Lync or Cisco Jabber.

Except for webcam and video calling application, each conference should meet:

- A computer with speakers (or a headset and a microphone; your Tenveo-T1 has two built-in microphones).
- A broadband Internet connection (e.g., DSL, T1, or cable)
- For full HD 1080p video calling please check your preferred video calling software requirements. (Requirements may vary between applications but usually a minimum of 2 megabit upload speed is required).
